

QUARTER ROUND

Transition between wall base & the hardwood floor. Quarter Round can also be used as a transition between cabinetry & the hardwood floor.

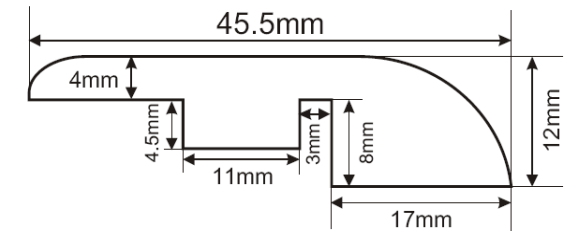

SQUARE NOSE

Transition between the hardwood floor & a doorway or between floors of different heights. Square Nose are ideal for a sliding glass door or against a fireplace hearth.

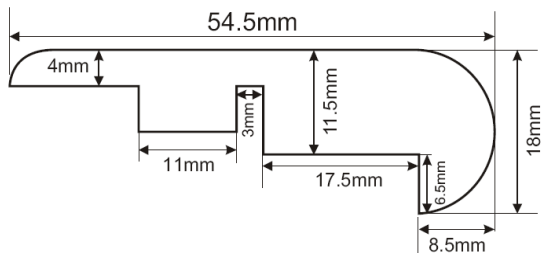

REDUCER

Transition between floors of different heights (high to low). Reducer's are ideal for transitioning hardwood with a low pile carpet or vinyl.

STAIR NOSE

Add the finishing touch to steps & stairway landings with hardwood flooring.

T-MOLDING

Transition between surfaces in adjacent rooms. They are used in doorways & between floors of the same height.
